AI for Everyday Africans

Awareness, Access & Action.

By Clement Tala and Arnold Chiy

A PROPOSAL FOR THE YAOUNDÉ WORKSHOP

Moving from webinar thinking to continental impact.

This is not just a workshop; it is the launch of a mission. The goal is to demystify AI and equip everyday professionals—bankers, civil servants, faith leaders—with tools they can use immediately.

1 Million

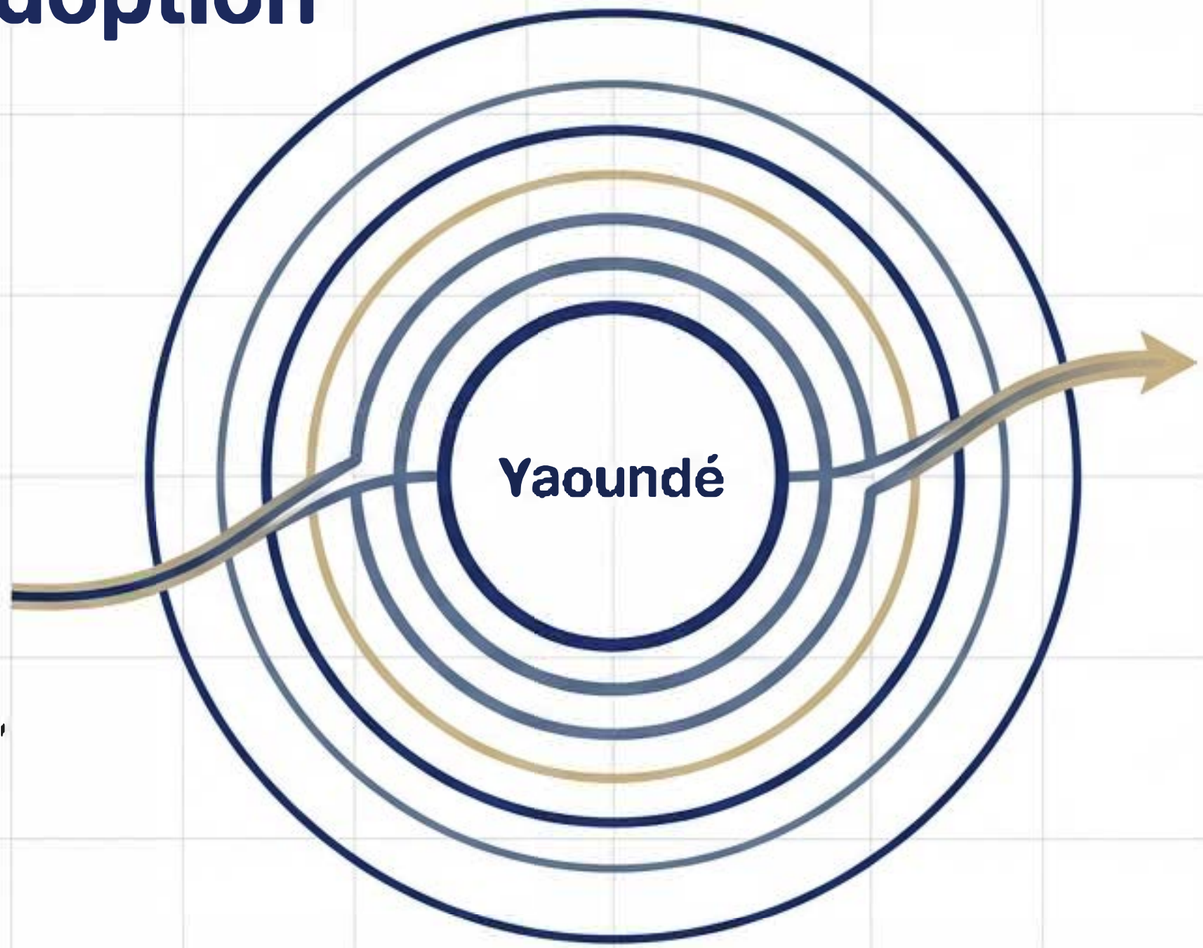
Africans empowered with AI awareness.

Mission: Demystify. Demonstrate. Equip.

Position Yaoundé as the launch hub for responsible adoption

Strategic Objective

Position Yaoundé as a
Position Yaoundé as a
center for digital confidence, productivity, and innovation.



Long-Term Vision

Create practical adoption among 1 million Africans, reducing operational costs and stimulating job creation across the region.

"Launch a long-term mission to create AI awareness."

A productivity empowerment session, not a coding class.

What it is NOT

- ✗ A technical coding workshop
- ✗ A theoretical lecture

What it IS

- ✓ A practical productivity workshop
- ✓ An empowerment session
- ✓ A “hands-on” experience

Core Promise: Participants leave with real outputs created during the session.

AI is a tool for everyone, not just the tech sector.

Bankers & Corporate Managers

Civil Servants & Admin Staff

Entrepreneurs & Small Business Owners

Faith Leaders & Religious Professionals

Students, Lecturers & Teachers

Open to anyone seeking professional development.

MINDSET

Leveraging Yaoundé for multiplier impact

Government Hub

Influence policy and public sector efficiency

Banking Centre

High concentration of financial institutions

Institutional Hub

Access to universities and professional associations

Ecosystem

A growing entrepreneurial environment

A structured 4-6 hour face-to-face immersion.

Session 1

AI Awareness & Mindset (The ‘Why’ and ‘Cost’ of missing out).

Session 2

Practical Demonstrations (Context engineering, Workflows, Dashboards).

Session 3

Guided Practical (Live content generation on phones/laptops).

Session 1: Awareness & Mindset

Understanding what AI is (and isn't) and why Africa cannot miss this shift.

The Cost of Ignoring AI

Traditional

£500 & 14 days

With AI

5 minutes

Session 2: Practical Demonstrations & Hard Skills

- **Strategic AI Thinking:** Matching tasks to the right models.
- **Context Engineering:** Mastering the art of providing context to eliminate generic outputs.
- **Advanced Prompting:** ‘Talk-it-out’ methods and managerial prompting patterns.
- **Smart Resource Management:** Understanding context windows and token budgeting.
- **Workflows:** From Canvas mode edits to building interactive dashboards.

Session 3: Real outputs created live

- Business Proposals
- Social Media Strategy
- Reports & Presentation Slides
- Marketing Content
- Lecture Training Materials

Live implementation questions answered on the spot.

Immediate utility without physical waste

- Digital AI Starter Guide
- Recommended Tools List
- Prompt Structure Guide
- Digital Certificate of Participation
- Post-workshop follow-up resources

No physical gadgets required.
Everything is electronic and immediately usable.

A roadmap for tangible outcomes

Short-Term

200–500 trained, 80% creation rate, increased digital confidence.

Medium-Term

Increased workplace productivity, reduced outsourcing costs, small business growth.

Long-Term

Job creation, entrepreneurial innovation, stronger digital economy.

A sustainable, break-even financial model

The Goal: Break even and reinvest surplus into expanding awareness.

Affordable Access

Participants pay modest fee.

Sponsor-Backed

Corporate partners cover logistics; free/reduced entry.

Hybrid

Low entry fee + sponsorship support.

Budget Range: Moderate & Scalable (Minimal marketing cost via AI).

Partner with us to accelerate responsible AI literacy

Venue Partners:
Hosting the physical space.

Corporate Sponsors:
Underwriting costs for impact.

Media Partners:
Amplifying the message.

Institutions:
Universities and professional associations.

Help us launch this movement in Yaoundé.

Africa must be a creator, not just a consumer.

Artificial Intelligence is not the future. It is the present.

We must become innovators and early adopters. This workshop is the beginning of empowering one million Africans.
